To All:

The following pages chronicle the accomplishments of approximately 400 of the world's finest aquatic athletes competing in the world's most demanding annual swimming and diving meet--the NCAA Championships.

Records fell in many events as they were expected to do, and those which the swimming world recognizes to be of major significance are listed in the pages that follow. Personal bests were achieved in far larger numbers, but these achievements are impossible to chronicle in a compilation of this type. Nevertheless, they are important to the achievers, and we salute the Unknown Record Breakers along with those whose names and records are documented herein for what they did on the last weekend in March in 1984.

We wish to recognize too some other people whose contributions to the success of the 61st Annual Swimming and Diving Championships were thoroughly invaluable. We refer to the coaches, the trainers, the non-competing team members, the meet officials, timers, judges and deck workers. And a special salute is due the loyal and dedicated parents of the competitors.

We have now hosted four Division I National Championships in the Cleveland State varsity pool during the past decade. Each has left us with lasting memories, thanks in great measure to the people we recognize herein.

To each of them, and to all who read this message, please be aware that the signs which have hung above the entrance to the building housing "the fastest little pool in America" will always reflect our feeling. You may remember them. They say "Welcome Back."

Regards,
